

OCR-Harness Test Sample

Document for end-to-end OCR benchmarking.

Section 1: Introduction

This is a sample document used to verify OCR pipelines.

It contains plain text paragraphs, a simple table, and a math formula.

Section 2: Table

Item	Qty	Price
------	-----	-------

Apple	4	\$5
-------	---	-----

Bread	2	\$3
-------	---	-----

Section 3: Formula

Euler's identity: $e^{(i*\pi)} + 1 = 0$

Quadratic equation: $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$

Page 2: additional notes

OCR-Harness integrates 6 engines (MinerU, Marker, Docling, PaddleOCR, Nougat, Surya) with LLM-based correction.

Quality scoring auto-triggers fallback engines when the produced Markdown scores below 0.85.
